

HAZAROUDS MATERIAL AWARENESS

SAMPLE TEST

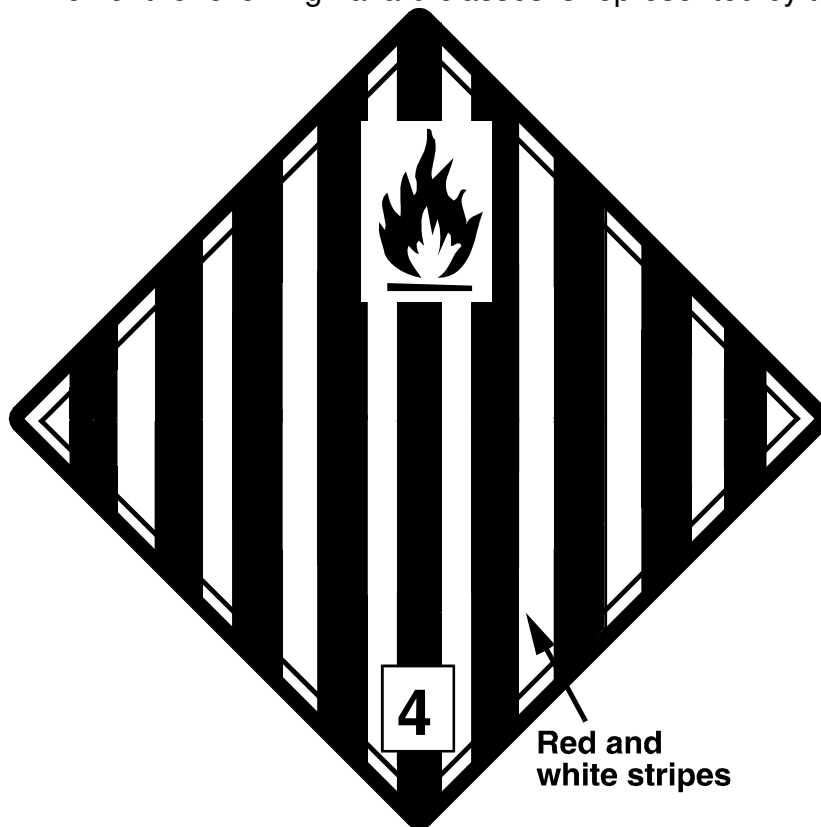

7/22/2008

1. Federal OSHA 29CFR 1910.1200 and several states have required that local establishments keep a Material Safety Data Sheet on file when:
 - A. wood products are used.
 - B. personnel have not received specialized hazmat training.
 - C. hazardous materials are used or stored on site.
 - D. backup emergency power is not available.
2. A white quadrant in the 6 o'clock position of the NFPA 704 System is used to indicate:
 - A. health hazards.
 - B. flammability.
 - C. special hazards.
 - D. reactivity.
3. A reference book intended to be carried in every emergency vehicle in the United States is the:
 - A. *IFSTA First Responder Manual*.
 - B. *NIOSH Handbook of Hazardous Materials*.
 - C. *Emergency Response Guidebook*.
 - D. *NFPA Fire Protection Handbook*.
4. The placard drawing below represents which of the following hazard classes?

- A. Explosives
- B. Nonflammable gas
- C. Flammable solid
- D. Oxidizer

5. Which of the following hazard classes is represented by the placard drawing below?

- A. Explosives
 - B. Nonflammable gases
 - C. Flammable solids
 - D. Oxidizers
6. During a suspected terrorist event, the outward warning indicator(s) that responders should be alert to is/are:
- A. strong chemical odors without apparent reason.
 - B. unexplained patterns of illness or death.
 - C. unusual containers that are out-of-place with the surroundings.
 - D. All of the above.
7. A first responder must refer to the Table of Initial Isolation and Protective Action Distances in the emergency Response Guidebook:
- A. whenever the material entry guide number is supplemented with the letter "P."
 - B. whenever the material entry in the Identification Number and Name Indexes is highlighted and fire is involved.
 - C. whenever the material entry in the Identification Number and Name Indexes is highlighted and fire **is not** involved.
 - D. whenever identification of a material cannot be made using any of the index methods.

Directions: Match the mode of hazmat transportation in Column A with the person responsible for having the shipping papers in that mode of transportation, located in Column B.

Column A

Column B

- | | |
|-------------|----------------------|
| 8. Air | A. Driver |
| 9. Rail | B. Captain or master |
| 10. Highway | C. Conductor |
| 11. Water | D. Pilot |
| | E. Purser |
12. When using the Emergency Response Guidebook, the next step the first responder should follow after learning a material's 3-digit guide is to:
- A. go to the blue-bordered section.
 - B. go to the yellow-bordered section.
 - C. call CHEMTREC.
 - D. go to the orange-bordered section.
13. First responders trained to the Awareness level have the ability to:
- A. select and use proper PPE.
 - B. implement basic decontamination measures.
 - C. realize the need for additional resources and make the appropriate notifications to the communication center.
 - D. apply basic hazard and risk assessment techniques.
